**Parent & Teenager Driving Contract**

Driving on your own is a big deal, it brings a new level of freedom and independence to your life, but it may also present significant danger to you.

**23 PER CENT OF 18 -24 YEAR OLDS HAD BEEN INVOLVED IN A CRASH WHILST DRIVING WITHING 6 MONTHS OF PASSING THEIR TEST.\***

To help keep you safe behind the wheel, we have designed a contract aimed at helping parents enforce good driving behaviour and rules, by clearly demonstrating what is expected, in return for the financial support they provide you, to help you get on the road.

This contract is not legally binding, but it will allow you to have an open conversation about the do's and don'ts of driving and clearly demonstrate the repercussions of not following these simple instructions.
